

INFRASTRUCTURE

MUSIC / DANCE

Music is the soul of the cosmos. The Scholl introduces the students to the wonderful world of music in its unique way and at the same time, it helps them to unwind from the daily routine of students. The following are the options available to students as part of music and dance activities.

Music: Instrumental, Keyboard, Guitar, Drum set

Dance: Indian Classical -Kathak/western

DRAWING/PAINTING/FINE ARTS

The Holy Cross School believes in providing a holistic learning experience to each child. Therefore, along with studies the school is providing activities like art and craft/ Drawing & Painting and Fine Art to develop their skills.

Pot painting, Cloth Painting, Glass Painting, Collage, Stippling Art

SPORTS

The Holy Cross School provides its students multiple opportunities to develop skills, competitive team sports, while learning the responsibilities and leadership qualities of team play. In addition, students are introduced to several sports to encourage them to develop proficiency in them. Following are Some of the sports facilities offered at the school. Basketball, table tennis, Volleyball, Badminton, Football, Martial Arts/Taekwondo, yoga, kho-kho, chess etc.

LIBRARY

The school library acts as a resource and empowers the young learners. It enriches the young minds and allows child's imagination to run free. It provides a gateway to knowledge and enjoyment.

The library also helps the teaching fraternity to use a variety of strategies to enhance children's project work, research and group dynamics.

COMPUTER LAB

Technology coupled education is an empowering tool. With the latest gadgets and software springing day by day, in the ever-changing world of today, we have computer labs equipped with advanced infrastructure in terms of hardware and software. This is to cater the requirements of the students, teachers, and the curriculum.

Maths Lab

The Mathematics Lab has been created to explore the need of going beyond the textbooks and explore Math and apply it in day-to-day situations. Various brain storming activities like solving mathematical riddles, application-based games and making mathematical models are conducted to explain difficult concepts and hone the computational and problem-solving skills.

Activity Room

In the activity room children come in small groups and experience activities, interaction, and other planned activities. Our activity rooms cater to cognitive, socio-emotional, fine and gross motor skill development. It is very important for children to experience small group work as well as individual and large group work, so this quiet extension gives the children every opportunity, as they learn with the help of play way method.

Safety Measures

Creating and maintaining a safe learning environment is one of the primary concerns of the school. To ensure this a number of CCTV cameras are installed in the campus, classes, corridors and the entire school is under its surveillance. Fire extinguishers and Fire safety Measures are installed at every floor and emergency exits are present for use in case of safety threats

School Laboratories

The school is having well – equipped laboratories for computer, Physics, Chemistry, Biology and Mathematics with state-of-the art-instruments to ensure mastery of subjects. It will allow the students the opportunity to learn through experimentation. School is going to have the Language Lab very soon.
